

QUEST 2: PLANTS FOR HUMAN MEDICINE (IDS 2935)

SPRING 2024, Primary General Education Designation: Biological Sciences, 2000 words writing

"Can we explore plants for human medicine to address current societal health problems?"

- ✓ We will learn about bioactive compounds first discovered in plants that provided modern medicines and serve as stimulus and inspiration for synthetic drugs
- ✓ We will discuss the role of plants in various pressing societal problems such as opioid crisis, pain management, mental health etc., in a multidisciplinary way
- ✓ Think-pair-share, discussions, self-reflection papers and campus tours related to plants-health-medicine

Instructor

Dr. Satya Swathi Nadakuduti, Ph.D.

Assistant Professor in Environmental Horticulture; nadakudutilab
Email: s.nadakuduti@ufl.edu Phone: 352-273-4575, Office: 1519 Fifield Hall
Office hours: Thu 2-4pm
Teaching Assistant: **Larissa Laforest**, PhD candidate, PMCB
Email: llafirest@ufl.edu
Office hours: Tue 11:45 am -12:35 pm

Class Meetings

Spring 2024

Timing: Tue 10:40 – 11:30am (T4); Thu 10:40 – 12:35am (R4-5)

Location: **2316 Fifield Hall**
