Course Goals:

Social and behavioral science courses, like SYG 2000, provide instruction in the history, key themes, principles, terminology, and underlying theory or methodologies used in the social and behavioral sciences. Students will learn to identify, describe and explain social institutions, structures or processes. These courses emphasize the effective application of accepted problem-solving techniques. Students will apply formal and informal qualitative or quantitative analysis to examine the processes and means by which individuals make personal and group decisions, as well as the evaluation of opinions, outcomes or human behavior. Students are expected to assess and analyze ethical perspectives in individual and societal decisions. This is a general education course that satisfies Social and Behavioral Sciences (S) credit requirements. My expectation is that you will find this a deeply interesting and engaging class.

Course Objectives:

1) Introduce students to the basic concepts, theories, and methods that sociologists use. Course materials and activities provide students opportunities to see how social scientists use varied methods to collect information about specific social issues. Moreover, students will critically assess how that information can be used to frame understanding about why social patterns exist and what might be the possible consequences of those patterns.

- 2) Provide students with a brief overview of sociology as a discipline within the social sciences that exposes students to strategies to identify, study, and address social issues and research questions. Course activities will provide students with opportunities to apply critical thinking skills to evaluate debates about contemporary social issues and the evidence needed to address the issues.
- 3) Help students to develop the ability to understand how various social processes and structures affect one another.
- 4) Encourage students to develop a better understanding of how their own lives and significant relationships are shaped by larger social forces.
- 5) Provide students with insights about how individuals' interactions with others can affect the larger society.

Student Learning Objectives:

The general education student learning outcomes (SLOs) describe the knowledge and skills that students are expected to acquire while completing a general education course at the University of Florida. The SLOs fall into three categories: *content*, *communication*, and *critical thinking*:

- *Content* is knowledge of the concepts, principles, terminology and methodologies used within the discipline. Students demonstrate competence in the terminology, concepts, methodologies and theories used within the discipline.
- *Communication* is the development and expression of ideas in written and oral forms. Students communicate knowledge, ideas, and reasoning clearly and effectively in written or oral forms appropriate to the discipline.
- *Critical thinking* is characterized by the comprehensive analysis of issues, ideas, and evidence before accepting or formulating an opinion or conclusion. Students analyze information carefully and logically from multiple perspectives, using discipline specific methods, and develop reasoned solutions to problems.

Course Requirements:

Each week you have the following requirements:

- (1) Review the **Chapter Learning Objectives** for the module.
- (2) Read **Assigned Chapter**.
- (3) Complete the weekly **InQuizitive activity**. This learning tool should take about 45 minutes to hour to complete each week. **Your 2 lowest InQuizitive scores of the semester will be dropped and will not affect your grade. Late InQuizitive assignments will not be accepted. Reminder:** Like all other course assignments, access InQuizitive through the course website so that your grade is added to the course gradebook each week. This assignment reinforces learning of the chapter content.
- (4) Take the weekly **Quiz**. These quizzes reflect the content of assigned readings. They are timed. You have 10 minutes to answer 10 multiple-choice questions. You can take the quiz up to 2 times. Your highest score will be recorded. The quiz questions are drawn from a large test bank so the questions will not be the same across quizzes. No make-up quizzes will be given unless you have a written excuse from your health care provider other approved excuse according to UF academic policies. **Your 2 lowest quiz scores of the semester will be dropped automatically and will not affect your grade.**
- (5) Complete **Weekly Discussion Assignment**. The discussion assignments invite you to reflect on different sociological theories and how they apply

to related social issues. **Your 2** lowest quiz scores of the semester will be dropped automatically and will not affect your grade. The assignments will be graded for communication and critical thinking.

Final Exam:

Your final exam in this course will be proctored using Honorlock. No materials (notes, book etc) allowed. Review the Honorlock Student Guide below (this information can also be found in “Start Here” section of your course site) for detailed information.

Honorlock is an online proctoring service that allows you to take your exam from the comfort of your home. You do not need to create an account, download software, or schedule an appointment in advance. Honorlock is available 24/7, and all that is required is a computer, a working webcam/microphone, your ID, and a stable internet connection.

When you are ready to complete your final exam, log into Canvas, go to your course, and click on your exam. You will be prompted to download the [Honorlock Chrome Extension](#). Clicking "Launch Proctoring" will begin the Honorlock authentication process, where you will take a picture of yourself, show your ID, and complete a scan of your room. Honorlock will be recording your exam session through your webcam, microphone, and recording your screen. Honorlock also has an integrity algorithm that can detect search-engine use, so please do not attempt to search for answers, even if it's on a secondary device.

Honorlock support is available 24/7/365. If you encounter any issues, you may contact them through live chat on the [support page](#) or within the exam itself. Some guides you should review are [Honorlock MSRs](#), [Student FAQ](#), [Honorlock Knowledge Base](#), and [How to Use Honorlock](#). Good luck!

Notes on Taking On-line Quizzes/Tests:

Proceed with a WIFI connection at your own risk. UF recommends that students use a computer with a cable modem connection when taking on-line tests and quizzes, as a “flicker” in your WIFI connection can result in your being disconnected from an in-progress quiz or to page loading errors. Flickers can occur for many reasons. It could be that your roommate just downloaded a movie, too many users trying to get online at the same time at the library, café, or at your apartment complex, etc. The problem is less likely to occur if you are the only user of your modem. We strongly recommend against using WIFI in a public space. If you chose to use a WIFI connection and have a problem, we will not extend deadlines for you or allow retakes. Instead, drop scores are integrated into the class to help you deal with any missed assignments for WIFI flickers or any other reasons beyond the student’s control, as follows.

Missed assignments for reasons beyond the student’s control: The course is designed to allow each student at least one drop score per semester per assignment type to help account for the possibility that something beyond your control occurs (internet connection issue, car trouble, stuck in traffic, laptop stolen, dog eats book). Therefore, we will not extend deadlines due to circumstances beyond your control. The only exception is that if there is a UF computer system outage, then extensions and retakes will always be allowed (see *Reporting Technical Problems and Troubleshooting* below). If you have a serious, ongoing personal problem or acute medical issue that will impair your ability to complete assignments, please contact your instructor for help.

Reporting Technical Problems: If you experience a technical issue during an online assignment, report it to the UF Help Desk at 352-293-HELP. Even if the issue is not UF-system related, the Help Desk can trouble shoot the issue for you, (e.g., suggest you clear your cache and cookies or use a preferred browser, etc.). If the problem is UF-system related, you have 24 hours to send your instructor your Help Desk ticket number to have a deadline extended.
