SYLLABUS

COURSE TITLE: Survey of Calculus 1

CATALOG DESCRIPTION: Geometric and heuristic approach to calculus; differentiation and integration of simple algebraic and exponential functions; applications to graphing, marginal analysis, optimization, areas and volumes.

COURSE CONTENT: MAC 2233 is the first in the two-semester sequence, MAC 2233 and MAC 2234, surveying the important ideas of calculus but emphasizing its applications to business, economics, life, and social sciences. The course covers important precalculus topics: basics of functions and graphing and their applications as models (linear, quadratic, rational, exponential, and logarithmic), as well as calculus topics: limits, differentiation and applications of the derivative, introduction to integration and its applications including area (volume is not covered). This course does not cover trigonometry.

A minimum grade of C (not C-) in MAC 2233 satisfies three credits of the university General Education quantitative requirement.

PREREQUISITES: Any of the following minimal acceptable score on the online mathematics placement exam, a minimum grade of C in a MAC course numbered 1140 or higher; AP credit on MAC 2311; IB credit for a MAC course numbered 1140 or higher.

MAC 2233 assumes that the students have essential precalculus skills necessary to succeed in calculus, and we will review the most important topics of precalculus at the beginning of the term. We strongly recommend that the students who are having difficulty with the precalculus material consider taking MAC 1140, a 3-credit review of Precalculus Algebra.
Note: you may adjust your class schedule on ONE.UF only during the drop-add week.

INSTRUCTOR: **Dr. Larissa Williamson**
        Office: LIT 380
        Office Hours: TBA
        E-mail: lwill@ufl.edu
        Webpage: https://people.clas.ufl.edu/lwill/

Request for an Office Hour by Appointment has to be sent at least 48 hours in advance.

E-Learning (Canvas):   https://elearning.ufl.edu/

E-MAIL: The **Instructor** will communicate with the students and reply to **all** email messages received from the students ONLY via Canvas **Inbox** tool.

Delivering Content

TEXTBOOK & ACCESS CODE: We use the following textbook in this course:
Calculus with Applications, 12th edition,
by Margaret L. Lial, Raymond N. Greenwell, Nathan P. Ritchey*

Access code to **MyLab and Mastering** is required in the course. **Access code can be obtained through [UF All Access](#) program by authorizing charges to your student financials account and is provided at a reduced price.** ** This option will become available starting one week prior to the beginning of the semester and ends three weeks after the first day of class.
If you do not wish to authorize charges to your student financials account, you may purchase access code at the Campus bookstore instead (https://www.bkstr.com/floridastore), which will be more expensive than opting-in.

* Registration with MyLab gives you access to an electronic version of the textbook. If you wish to have a print text, you may purchase it at the bookstore.
**Please see Course Tools & Technology → Course Materials & Registration Instructions on E-Learning (Canvas) for complete information on obtaining access code through UF All Access and registration with MyLab and Mastering.

LECTURE NOTES: Lectures in this course are delivered using Lecture notes shells which can be printed from each Module on Canvas or from the Canvas page Lecture Notes. Lecture notes shells make note taking easier and are required in the course. The whole set of Lecture Notes (Course Pack) will be available for purchase at Target Copy: it can be either picked up at the location (1412 W University Ave, Gainesville, FL 32603) or ordered online (http://target-copy.com/) and it will be shipped to you.

TEXTBOOK READINGS: Reading the textbook is a part of the learning process. The students are strongly recommended to read the corresponding sections of the textbook after (or before) viewing a lecture and before doing homework on MyLab. The pages of the textbook that match the content of the lectures are listed in Canvas Modules.

Course Structure

The Course Management System is E-Learning (Canvas): https://elearning.ufl.edu/

Course materials are divided into **5 Units** with a total of 36 conceptional Modules, M01-M36. (See the last page of this Syllabus for detailed Module Coverage.)

Unit 1	M01 – M05	Review of Algebra
Unit 2	M06 – M13	Functions & Mathematical Models
Unit 3	M14 – M22	Limits & Derivatives
Unit 4	M23 – M30	Differentiation & Applications
Unit 5	M31 – M36	Integration & Applications

TEXTBOOK HOMEWORK: Textbook homework problems are assigned after each lecture. **They will not be graded** but should be considered as an additional tool for mastering the material. Lists of recommended Textbook Homework problems are located in Canvas Modules.

Assessments

ONLINE HOMEWORK: Each online **Homework assignment** (HW) is a set of problems assigned on MyLab and numbered according to the Module covered. A HW assignment will give you the necessary practice for mastering the material delivered in lecture. Each homework assignment is due at 11:59 pm on the due date. **A HW will be closed after the deadline and cannot be re-opened without a legitimate reason**. Credit for a HW will be given according to the percent value of the correct work completed. Review of a completed HW will be available via MyLab gradebook after the deadline – a non-attempted HW cannot be reviewed. There will be a total of 36 HW assignments offered, and **the 2 lowest scores will be dropped** at the end of the term.

EXAMS & QUIZZES: There will be <u>three</u> Unit Exams, <u>two</u> Unit Quizzes, and the Final Exam offered during the term.

Unit Quizzes, Quiz-Unit1 and Quiz-Unit5, are mandatory but <u>not proctored</u>. They are "open notes" quizzes. The Quizzes have to be taken from within <u>MyLab and Mastering</u> on the dates indicated on the Calendar: each Quiz opens at 12 am and closes at 11:59 pm on the same day. The time allowed is 75 minutes. Each Unit Quiz contains 20 multiple-choice questions at 2 points each and will be graded out of 40 points (no bonus). Review of a completed Quiz will become available after the deadline and can be accessed from MyLab gradebook.

The mandatory Final Exam is cumulative: it covers Units 1-5. The score for the Final Exam will appear on Canvas Gradebook **twice**, one time, as the **Final**, and, the second time, as the **MakeUp** (please read the section Makeup Policy on Exams in this Syllabus).
For more information on Exams and Unit Quizzes please visit the link Exam Information on the Canvas course main page.

Software Policy

Scientific calculators are required in the course.
A graphing calculator is needed for some homework problems but it can be replaced with suitable software, such as MATLAB, which is available via UF Apps.
Calculators are not allowed on Exams!
The students will have an <u>option</u> to learn MATLAB programming environment in relation to the topics covered in the course, but **it is not required**. There will be a **Bonus MATLAB Project** offered at the beginning of the term which is worth 10 points. The points earned on the Project will be added to the score for **Quiz-Unit1**. For more information on the Bonus MATLAB Project, please visit the link MATLAB Project on the Canvas course main page.

Makeup Policy

MAKEUP POLICY ON ONLINE HOMEWORK AND QUIZZES**:** If you are not meeting the deadline for a homework assignment or a Unit Quiz or missing a lecture on a **legitimate reason** (being sick, being away on the UF business, family emergency, religious holidays), you may send an email to Dr. Williamson via **Canvas Inbox** tool either prior to the deadline or within three (3) days after the deadline and request an extension or make-up – a reason for the request has to be clearly specified and the Instructor may request a documentation. Missing a **Unit Quiz** without a legitimate reason and making it up later will result in a 5-point penalty - a request for an extension has to be sent no later than within three (3) days after the deadline for the Quiz. **Late requests will not be accepted**!

MAKEUP POLICY ON EXAMS: It may be necessary to miss a Unit Exam during the term or you may not be satisfied with your grade earned on Unit Exams. For these reasons, the **Final** Exam will be counted second time as a **MakeUp**: **the best 3 out of the 4 scores** on the three **Unit Exams** and **MakeUp** will count towards the grade on the category Unit Exams.
If you are missing a Unit Exam due to a legitimate reason (being sick, being away on the UF business, family emergency, religious holidays, conflict with an assembly exam of a higher number course), you can request a make-up for the missing exam and save the make-up option of the Final. The request has to be sent to Dr. Williamson **via Canvas E-mail** either prior to the regular exam or within one (1) day after the exam. **We will not accept late requests**!
If you are missing the Final due to a legitimate reason, you need to send a request for the make-up no later than within one (1) day after the Final. Missing the **Final** without a legitimate reason and making it up later will result in a 10-point penalty - a request for a make-up has to be sent no later than within one (1) day after the Final.

IMPORTANT NOTES: You can discuss with your Instructor a Unit Exam, Unit Quiz, HW, LC quiz, and MATLAB Project **within three (3) days** and the Final Exam – **within one (1) day** upon receiving the grades if there is a grading error or any other problem**. Late requests will not be accepted!**
All issues with Canvas, MyLab & Mastering, and UF Apps/MATLAB have to be reported immediately and documented when sending a request for an extension or retake.
For help with the course, please visit the link Resources & Help on Canvas.

Grades

The course grade is the grade satisfying the conditions below and **will be adhered** to:

	Minimum %			Minimum %
A	90 %		C	66 %
A-	86 %		C-	62 %
B+	82 %		D+	58 %
B	78 %		D	54 %
B-	74 %		D-	50 %
C+	70 %		E	0 %

Note: We have 0.5% round up margin towards a higher letter grade.

GRADE POSTING: All grades will be posted in a timing manner on E-Learning (Canvas) at https://elearning.ufl.edu/. We strongly recommend to check regularly whether your grades are handled and recorded correctly. **You should immediately report any problem with your grade to your instructor.**

Miscellaneous

Help: Please visit Resources & Help link on the Canvas Homepage for the information.

Grades: Grading will be in accord with the UF policy stated at
https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx

Honor Code: "UF students are bound by The Honor Pledge which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment." The Honor Code specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class."

Class Attendance: "Requirements for class attendance and make-up exams, assignments, and other work in this course are consistent with university policies that can be found at: https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx "

Accommodations for Students with Disabilities: "Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting https://disability.ufl.edu/students/get-started/
It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester."

Online Evaluations: "Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at https://gatorevals.aa.ufl.edu/students/. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via https://ufl.bluera.com/ufl/. Summaries of course evaluation results are available to students at https://gatorevals.aa.ufl.edu/public-results/."

Contact information for the Counseling and Wellness Center: https://counseling.ufl.edu/
392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

Course Content and Module Coverage

Unit 1: Review of Algebra

M 01	Polynomials & Factoring (Sect. R1, R2)
M 02	Polynomial Division & Rational Expressions (Sect. R3)
M 03	Equations: Linear, Quadratic, and Rational (Sect. R4)
M 04	Inequalities: Linear, Quadratic, and Rational (Sect. R5)
M 05	Exponents & Radical (Sect. R6, R7)

Unit 2: Functions & Mathematical Models

M 06	Slopes & Equations of Lines (Sect. 1.1)
M 07	Linear Functions & Applications; The Least Squares Line (Sect. 1.2, 1.3)
M 08	Properties of Functions (Sect. 2.1)
M 09	Transformations of Graphs & Quadratic Functions (Sect. 2.2)
M 10	Polynomial and Rational Functions (Sect. 2.3)
M 11	Exponential Functions (Sect. 2.4)
M 12	Logarithmic Functions (Sect. 2.5)
M 13	Applications: Growth & Decay; Math in Finance (Sect. 2.6)

Unit 3: Limits & Derivatives

M 14	Limits (Sect. 3.1)
M 15	Continuity (Sect. 3.2)
M 16	Rates of Change & Tangent Line (Sect. 3.3, 3.4)
M 17	Definition of the Derivative & Graphical Differentiation (Sect. 3.4, 3.5)
M 18	Techniques of Differentiation (Sect. 4.1)
M 19	Derivatives of Product and Quotient (Sect. 4.2)
M 20	The Chain Rule (Sect. 4.3)
M 21	Derivatives of Exponential Functions (Sect. 4.4)
M 22	Derivatives of Logarithmic Functions (Sect. 4.5)

Unit 4: Derivatives & Applications

M 23	Increasing and Decreasing Functions (Sect. 5.1)
M 24	Relative Extrema (Sect. 5.2)
M 25	Higher Derivatives, Concavity, Second Derivative Test (Sect. 5.3)
M 26	Curve Sketching (Sect. 5.4)
M 27	Absolute Extrema & Applications (Sect. 6.1, 6.2)
M 28	Business Applications of Extrema (Sect. 6.2, 6.3)
M 29	Implicit Differentiation, Related Rates (Sect. 6.4, 6.5)
M 30	Differentials: Linear Approximation (Sect. 6.6)

Unit 5: Integration and Applications

M 31	Antiderivatives (Sect. 7.1)
M 32	Method of Substitution (Sect. 7.2)
M 33	Area & Definite Integral (Sect. 7.3)
M 34	The Fundamental Theorem of Calculus (Sect. 7.4)
M 35	The Area between Two Curves (Sect.7.5)
M 36	Numerical Integration (Sect. 7.6)
