

BITE ME? INSECTS AS DISEASE VECTORS

INSTRUCTOR INFORMATION

Instructor**Dr. Elizabeth Cash****Contact Information & Hours**

Location: 3111 Steinmetz Hall

E-mail: e.cash@ufl.edu

Office hours (Zoom): Fridays, 12 – 1 pm

Teaching Assistant**Nich Martin****Contact Information & Hours**

Location: 2139 Steinmetz Hall

E-mail: n.martin@ufl.edu

Office hours (Zoom): Mondays & Wednesdays, 4 – 5 pm

GENERAL INFORMATION

COURSE DESCRIPTION

Arthropod-borne diseases represent some of the most dangerous and major challenges facing human health. They have shaped the course of history and remain a threat to human well-being. Everyone has, at one point or another, been exposed to the nuisance and bites of arthropods and, therefore, potentially to the diseases they may carry. The effects of these arthropod-borne diseases on human health are increasing and spreading. Factors such as the development of resistant parasite strains to the currently available drugs, and the evolution of insecticide resistance to currently available insecticides account for this increase and spread. Other factors such as constantly changing climate, trade, unplanned urbanization, changes in agricultural practices, and human travel also aid the establishment of these diseases thereby intensifying disease transmission or causing disease emergence in areas where they were previously unknown. This is a multidisciplinary course that covers concepts and topics from the fields of entomology, medicine, public health, biology, parasitology, microbiology, and veterinary medicine. The course will address the interactions of arthropods to humans and the environment. It will present pressing issues relating to the impact of arthropods in public health and will also explore challenging questions such as “what are the emerging issues in vector biology and disease epidemiology”? and “what can be done to manage or prevent the occurrence of arthropod-borne diseases”?

COURSE DELIVERY

This course will explore content through lectures, reading assignments, Perusall article annotations and discussions, and interactions with a scientist who is actively working in the field of arthropod-borne disease research. The Perusall article annotations and discussions will allow students to ask questions and discuss meaningful and thought-provoking topics about arthropods and human health.

The interactions with a scientist will allow students to better understand the research on arthropod-vectorated pathogens that are of major concern to the United States and the rest of the world.

COURSE OBJECTIVES

By the end of this course, you will be able to:

1. Describe the pathogenesis of arthropod-borne diseases in humans.
2. Describe the historical and contemporary significance of insect-host interactions.
3. Explain the global health impact of arthropod-borne diseases on human health.
4. Evaluate the drivers of disease transmission from a global perspective.
5. Demonstrate knowledge of disease control strategies and their inherent challenges.
6. Describe emergent arthropod-borne infectious diseases and strategies for their control.
7. Formulate and develop a plan for research into the impact and control of arthropod-borne diseases.
8. Communicate research on arthropod-borne diseases using oral and/or written skills.
9. Interact with scientists in the field of arthropod-borne disease research.
10. Relate knowledge gained in the classroom to real-world arthropod-borne disease issues.

COURSE REQUIREMENTS

Required Textbook

There are no required textbooks for this course.

Prerequisites

There are no prerequisites for this course.

Minimum Technology Requirements

The University of Florida expects students entering an online program to acquire computer hardware and software appropriate to their degree program. Most computers can meet the following general requirements. A student's computer configuration should include:

- Webcam
- Microphone
- Broadband connection to the internet and related equipment (cable/DSL modem)
- Microsoft Office Suite installed (provided by the university)

Individual colleges may have additional requirements or recommendations, which students should review before starting their program.

Minimum Technical Skills

To complete your tasks in this course, you will need a basic understanding of operating a computer and using word processing software.

Materials/Supply Fees

There is no supply fee for this course.

Honorlock

Honorlock is an online proctoring service that allows students to take exams on-demand 24/7. There are no scheduling requirements or fees. You will need a laptop or desktop computer with a webcam, a microphone, and a photo ID. The webcam and microphone can be either integrated or external USB devices. Honorlock requires that you use the [Google Chrome](#) browser and that you must add the Honorlock extension to Chrome. For further information, FAQs, and technical support, please visit [Honorlock](#).

Zoom

Zoom is an easy-to-use video conferencing service available to all UF students, faculty, and staff that allows for meetings of up to 100 participants. You can find resources and help using Zoom at the [University of Florida Zoom website](#).

COURSE COMPONENTS

Student assessments will be based on performance in participation, reading assignments and discussions, quizzes, exams, and submission of a “Chat with a Scientist” form and Self-Reflection Report.

PARTICIPATION

Students will receive participation points for watching lecture videos in PlayPosit. Make sure that you watch these videos until the very end to receive points. Each Module's PlayPosit value is worth 5 points, totaling 70 points.

READING ASSIGNMENTS AND DISCUSSIONS

There are no required textbooks for this course. However, a list of required readings and videos intended to aid the student's understanding of the topics will be made available to the students through Canvas. Every module will have a selected reading for students to annotate and discuss with each other. The discussions will be hosted in Perusall. Each Perusall reading discussion will be worth 10 points.

QUIZZES

There will be 14 quizzes throughout the semester (10 points each). Students are required to download and read the assigned readings every week. There will be quiz questions from the readings and the lecture materials. The quizzes will include multiple-choice, mix-and-match, and true/false questions. The quizzes will be made available and accessible through Canvas from 8:00 am EST on Wednesdays until 11:59 pm EST on Sundays. Once you begin the quiz, you will have 7 minutes to complete it in a single session. So, do not open the quiz until you are ready to complete it. There are 14 quizzes throughout the semester, but your two lowest quiz scores for the semester will be dropped, and your grade for the quiz component will be based on the best 12 of 14 quizzes.

EXAMS

There will be four exams throughout the semester (50 points each). The exams will test the student's understanding of the literature and concepts taught in the course. The exams will include 25 multiple-choice, mix-and-match, true/false, fill in the blank, and free response questions. Each exam will be available and accessible in Canvas on Wednesday of the exam week. The exam will be proctored using Honorlock. The first exam will cover materials taught from Modules 1 to 4, the second exam will cover materials taught from Modules 5 to 8, and the third exam will cover materials taught from Modules 9 to 12. The final comprehensive exam will cover all the materials taught in the class, including Modules 13 to 14. Once you begin the exam, you will have 60 minutes to complete it in a single session. So, do not open the exam until you are ready to complete it.

Note that multiple choice, check all, true/false, and fill in the blank questions are automatically graded, whereas free response questions are manually graded by the instructor or TA. As such, you will need to wait for the instructor to sync the grades for your score to appear in the gradebook for any free response questions.

EXPERIENTIAL LEARNING AND REFLECTION REPORT

Students are required to interact with a scientist that is actively working on arthropod-borne disease(s). The scientist can be working in academia, government, or industry. This will allow the students to learn more about arthropod-vector-borne diseases that are of major concern to the United States and the rest of the world.

Before completing this assignment, students are to provide preliminary details on the scientists they will be interviewing (10 points). A "Chat with a Scientist" application form will be provided for the students in Canvas. The interview can be conducted face-to-face or via Zoom/FaceTime/etc. After interacting with the scientists, students must submit a "Self-Reflection Report" (40 points) reflecting on their experiences and interactions with the scientists. They are to reflect on what they have learned, and how the interactions with the scientists are relevant to their intellectual and personal development. For example, if given the opportunity, the kind of arthropod vector research they would like to do and how the outcome of their proposed research will reflect on public health issues in Florida, the United States, and the rest of the world.

To complete this assignment, students must:

- Submit a filled "Chat with a Scientist" application form in Canvas (10 points).
- Respond to the questions in the Self-Reflection Report Template regarding your experience with the scientists, then submit the document in Canvas.
- Send a mail to the instructor and the TA with the scientist copied with a summary of the meeting or interaction. Failure to do so will result in "zero" points.

ASSIGNMENT MAKE-UP POLICY

Make-up for an assignment will be allowed only for illness, emergencies, or prescheduled reasons. In the event of a missed assignment, you must provide the necessary written documentation, such as a note from a doctor in case of severe illness or a funeral notice/obituary in case of the death of a close relative. Any other kind of conflicting commitment should be communicated to the instructor at least

a week in advance. Requests to take an assignment late WITHOUT one of the reasons listed above will be considered but will automatically result in 5% of the points being deducted from the assignment score.

COURSE POLICIES & GRADING POLICY

LATE WORK POLICY

Students can submit late work up to 5 days after the due date. However, 5% will be deducted each day an assignment is turned in late.

GRADING POLICY

We will make every effort to have each assignment graded and posted within one week of the due date, however, this may change by instructor announcement.

Course requirements		Point value	Total points
Orientation module assignments		10 each	20
Participation (PlayPosit Module Lecture Videos)		5 each	70
Reading Discussions (Perusall)		10 each	140
Quizzes (2 lowest scores dropped)		10 each	120
Exams		50 each	200
Experiential learning	Submission of "Chat with a Scientist" form	10	10
	Self-reflection report	40	40
Total			600

GRADING SCALE

Grade	Percentages	Grade Points
A	93 – 100	4.00
A-	90 – 92.9	3.67
B+	87 – 89.9	3.33
B	83 – 86.9	3.00
B-	80 - 82.9	2.67
C+	77 - 79.9	2.33
C	73 - 76.9	2.00
C-	70 - 72.9	1.67
D+	67 - 69.9	1.33
D	63 - 66.9	1.00

D-	60 - 62.9	0.67
E	59.9 and below	0.00

UNIVERSITY OF FLORIDA POLICIES AND ASSISTANCE

Grades and Grade Points

A minimum grade of C is required for Gen Ed credit. For information on current University of Florida policies for assigning grade points, see <https://catalog.ufl.edu/UGRD/academic-regulations/grades-grading-policies/>.

Attendance and Make-Up Work

Students are expected to attend classes. Requirements for class attendance and make-up exams, assignments and other work are consistent with university policies that can be found at: <https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/>.

University Policy on Accommodating Students with Disabilities

The Disability Resource Center coordinates the needed accommodations of students with disabilities. This includes registering disabilities, recommending academic accommodations, accessing special adaptive computer equipment, providing interpretation services, and mediating faculty-student disability related issues. Students with disabilities requesting accommodations must first register with the Disability Resource Center. Once registered, students will receive an accommodation letter that must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

University Policy on Academic Conduct

UF students are bound by The Honor Pledge, which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity by abiding by the Honor Code." On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: "On my honor, I have neither given nor received unauthorized aid in doing this assignment." The [Student Honor Code and Student Conduct Code](#) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TA(s) in this class.

Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action.

For more information regarding the Student Honor Code, please see:

<https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/>.

Plagiarism

The [Student Honor Code and Student Conduct Code](#) states that:

"A Student must not represent as the student's own work all or any portion of the work of another. Plagiarism includes but is not limited to:

- Stealing, misquoting, insufficiently paraphrasing, or patch-writing.
- Self-plagiarism, which is the reuse of the student's own submitted work, or the simultaneous submission of the student's own work, without the full and clear acknowledgment and permission of the faculty to whom it is submitted.
- Submitting materials from any source without proper attribution.
- Submitting a document, assignment, or material that, in whole or in part, is identical or substantially identical to a document or assignment the student did not author."

It is to be assumed that all work will be completed independently unless the assignment is defined as a group project, in writing by the professor. This policy will always be vigorously upheld in this course.

Software Use

All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

GETTING HELP

Technical Difficulties

For help with technical issues or difficulties with Canvas, please contact the UF Computing Help Desk at:

- <http://helpdesk.ufl.edu>
- 352-392-HELP (4357)
- Walk-in: HUB 132

Any requests for make-ups (assignments, exams, etc.) due to technical issues should be accompanied by the ticket number received from the UF Computing Help Desk when the problem was reported to them. The ticket number will document the time and date of the problem. You should email your instructor within 24 hours of the technical difficulty if you wish to request a make-up.

Health and Wellness

Students experiencing crises or personal problems that interfere with their general wellbeing are encouraged to utilize the university's counseling resources. The Counseling Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on

campus for students having personal or lacking clear career and academic goals, which interfere with their academic performance.

- U Matter, We Care: If you or someone you know is in distress, please contact umatter@ufl.edu, 352-392-1575, or visit U Matter, We Care website to refer or report a concern and a team member will reach out to the student in distress.
- Counseling and Wellness Center: Visit the Counseling and Wellness Center website or call 352-392-1575 for information on crisis services as well as non-crisis services.
- Student Health Care Center: Call 352-392-1161 for 24/7 information to help you find the care you need or visit the Student Health Care Center website.
- University Police Department: Visit UF Police Department website or call 352-392-1111 (or 9-1-1 for emergencies).
- UF Health Shands Emergency Room/Trauma Center: For immediate medical care call 352-733-0111 or go to the emergency room at 1515 SW Archer Road, Gainesville, FL 32608; Visit the UF Health Emergency Room and Trauma Center website.

Academic and Student Support

- E-learning technical support: Contact the UF Computing Help Desk at 352-392-4357 or via e-mail at helpdesk@ufl.edu.
- Career Connections Center: Reitz Union Suite 1300, 352-392-1601. Career assistance and counseling services.
- Library Support: Various ways to receive assistance with respect to using the libraries or finding resources.
- Teaching Center: Broward Hall, 352-392-2010 or to make an appointment 352- 392-6420. General study skills and tutoring.
- Writing Studio: 2215 Turlington Hall, 352-846-1138. Help brainstorming, formatting, and writing papers.
- Student Complaints On-Campus: Visit the Student Honor Code and Student Conduct Code webpage for more information.
- On-Line Students Complaints: View the Distance Learning Student Complaint Process.

ADDITIONAL INFORMATION

Course Evaluations

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available on the GatorEvals [Providing Constructive Feedback](#) FAQ page. Students will be notified when the evaluation period opens and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via the [GatorEvals](#) website. Summaries of course evaluation results are available to students at the [GatorEvals Public Results](#) page. More information about UF's course evaluation system can be found at the [GatorEvals Faculty Evaluations](#) website.

Tips for Success

Taking a course online can be a lot of fun! Here are some tips that will help you get the most of this course while taking full advantage of the online format:

- Schedule "class times" for yourself. It is important to do the coursework on time each week. You will receive a reduction in points for work that is turned in late!
- Read ALL of the material contained on this site. There is a lot of helpful information that can save you time and help you meet the objectives of the course.
- Print out the Course Summary located in the Course Syllabus and check things off as you go.
- Take full advantage of the online discussion boards. Ask for help or clarification of the material if you need it.
- Do not wait to ask questions! Waiting to ask a question might cause you to miss a due date.
- Do your work well before the due dates. Sometimes things happen. If your computer goes down when you are trying to submit an assignment, you'll need time to troubleshoot the problem.
- To be extra safe, back up your work to an external hard drive, thumb drive, or through a cloud service.

Honorlock Online Proctoring

In order to maintain a high standard of academic integrity and assure that the value of your University of Florida degree is not compromised, course exams will be proctored. Students will take their exams online and will be proctored by Honorlock. You will take your exam electronically using the course website. You **do not** need to register for your exam. However, you will need to have installed and enabled the Google Chrome Honorlock extension prior to taking your exams. You will need a webcam, speakers, microphone, laptop or desktop computer, and a reliable internet connection to take your exams. Wireless internet is not recommended. You may also need a mirror or other reflective surface. Google Chrome is the only supported browser for taking exams in Canvas.

- **Before Your Exam**

Prior to each exam and in the same environment you plan to take the exam, review the [Honorlock Guidelines](#) (PDF), and go to [Honorlock Support](#) to run a system check. This process takes just a few minutes and is completely free. If your course offers an Honorlock Practice Quiz, it is strongly recommended that you take it to practice using Honorlock before your exams.

Important: If you are unable to take an exam because of a technical glitch on your end, that is your responsibility. However, if you do experience technical difficulties during the exam, Honorlock's support menu will be visible on-screen for you to contact a support agent.

- **Getting Help**

Honorlock offers 24/7/365 technical support to assist students before, during, and after exams. If you experience any trouble with Honorlock, begin a live chat on the [Honorlock Support](#) page, call 844-243-2500, or email Support@Honorlock.com.

COURSE SCHEDULE

Module	Topic/Activity	Assessments
1	Course Orientation Historical Aspects of Vector-Borne Diseases	<ul style="list-style-type: none"> • Orientation Quiz • Introduce Yourself! • PlayPosit Lecture 1 • Reading Discussion 1 • Quiz 1
2	Impact of Arthropods on Human Health	<ul style="list-style-type: none"> • PlayPosit Lecture 2 • Reading Discussion 2 • Quiz 2
3	Arthropod Transmission of Pathogens	<ul style="list-style-type: none"> • PlayPosit Lecture 3 • Reading Discussion 3 • Quiz 3
4	Mosquito-Borne Diseases	<ul style="list-style-type: none"> • PlayPosit Lecture 4 • Reading Discussion 4 • Quiz 4 • Exam 1 (Modules 1-4)
